Workshop

**Saturday 28th &
Sunday 29th July**
Main Lectures

Saturday 28th July
Night-watch/
Crop Circle Vigil

Sunday 29th July
Conference Dinner

The Summer Crop Circle Lectures is the world's leading crop circle conference. Researchers and enthusiasts gather together from around the globe each summer to present and share new ideas, experiences and research into this enigmatic phenomenon. Our programme combines top national and international speakers, along with exciting newcomers to provide a broad collection of ideas and thinking on the subject. Above all, the weekend is a celebration of the inspiration and influence these magnificent forms have had on our culture and it is an opportunity to meet new people and network with like-minded souls. In addition to our lecture programme, all the latest crop circle photographs, books and DVDs will be available, many by our speakers. Many of these items are not widely available elsewhere.
